

The Most Compact, Versatile Installed Video System **DV-440Ultra**

A More Compact, Versatile Video System

The DV-440Ultra offers all of the features of the DVM-400 in-car video system in a single, compact and lightweight, ruggedized and waterproof, all-in-one DVR with external waterproof bullet camera.

Designed to withstand direct exposure to harsh weather and environmental conditions, this compact system can be installed on different styles of motorcycles, EVs and security carts, ATVs, boats and other watercraft, or any other style of motorized vehicle. Its versatile design also makes it perfect for use in interview rooms.

- Rugged & Waterproof Design with Vibrationproof Memory
